DETAILED ACTION

1. Claims 1-13 are now pending.

Continued Examination Under 37 CFR 1.114

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on September 30, 2005 has been entered.

Allowable Subject Matter

3. Claims 1-13 are allowed over the prior art of record.
4. The following is an examiner's statement of reasons for allowance:

The prior art of record alone or in combination fails to teach or suggest:

in claim 1, storing the address of a first data block of the optical disc in an original second memory area of the memory before data is written in the first data block if the first data block is defective and if there is at least one address, which is greater than the address of the first data block, recorded in the defect table, wherein the second memory area is different from the first memory area; and during a data write-in operation, preserving an initial order of the first memory areas in the memory when the address of the first data block is stored into the second memory area;

in claim 9, when the optical disc drive stops writing data onto the optical disc, sorting the addresses both of the first data block and the second data block according to the sorting order of

the defect table stored in the first memory area, and updating the defect table according to the sorted address stored in the memory;

in claim 11, when the optical disc drive stops writing data onto the optical disc, combining the addresses of the defect table stored in the first memory area with the addresses stored in the second memory area so as to update the defect table, and writing the updated defect table in the optical disc;

and in claim 13, storing the address of a specific data block of the optical disc in a second entry of a second memory area of the memory before data is written into the specific data block if the specific data block is found defective and if there is at least one address, which is greater than the address of the specific data block, recorded in the defect table, wherein the second memory area is different from the first memory area; during a data write-in operation, if a spare block assigned to store data originally to be written in the specific data block is found defective, setting the second entry storing the address of a specific data block as a defective entry, and then storing the second entry to the first memory area without performing a sorting operation.

Claims 2-8, 10 & 12 are dependent upon allowed base claims.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to P. Agustin whose telephone number is 571-272-7567. The examiner can normally be reached on Monday-Friday 9:30-5:30 PM.
